Visiotech™

NEW VC-1 Badge Camera

When you need a wearable solution that integrates seamlessly with every uniform.

API

ACCESS & SECURITY

visiotech™ VC-1 Pro

85% of retail workers report being abused on a daily basis with a 20% spike in customer aggression since the COVID-19 pandemic.
* National Retail Association 2022

Body Cameras are a known deterrent for aggressive behaviour; however, they are not always practical for the average person to wear or manage. The new Visiotech VC-1 Pro Badge Camera is an ultralightweight Body Worn Camera specifically designed for retail, health and those working in public facing roles. Its discreet name badge design provides the perfect solution for interacting with the public and providing safety measures for retail staff.

The unique and practical design of the VC-1 Pro Badge Camera combined with Visiotech's Digital Evidence Management Software (DEMS) allows organisations to effortlessly manage hundreds of cameras across any number of stores/locations.

Registered Nurse

visiotech VC-1

Ideal for health & aged care workers, local government, rangers, emergency services, retailers, field service providers, real-estate managers/agents, inspectors, and lone workers.

FEATURES

- Cost effective and expandable solution. At less than half the price of other body cameras on the market it's practical for organisations to rollout on mass.
- This ultralightweight Badge Camera is only 45g. Can be worn on any clothing without slumping down and being uncomfortable.
- 8hrs standby time allows users to complete a shift without charging the battery.
- Integrated magnetic mount and/or pin mount allows users to attach the camera like a name badge.
- The flat name badge face is easy to customise and brand by simply applying a sticker.
- The Discreet design allows users to customise discreetly or have the option to highlight that it's a body camera.
- One-button press recording for easy and intuitive opertion.
- Real-time high-definition quality video and audio recording (1080p resolution).
- Wi-Fi live streaming and management functions.
- With Visiotech's Digital Evidence Management Software (DEMS) and convenient docking stations, charging and management of recorded data is made easy, secure and intuitive.
- Centralised data management and network storage options allows easy rollout across current net work infrastructure.
- The configurable "Record On Startup" feature extends the standby time to 12 months with a 3 second startup time.
- The configurable "Dash Cam Mode" feature allows the camera to be used as a dash camera in a vehicle.

Attach with Pin

Attach with Magnetic Clip

ADVANTAGES

✓ Decrease in aggressive behaviour towards staff
✓ Improvement in staff safety for retail and public facing personnel
✓ Improvement in productivity for staff who feel protected
✓ Improved situation awareness, active intelligence, and centralised management
